

# OUR TIPS FOR PACKING FOR A WEEK IN THE SUN.

## Start Early, Stay Sane

Begin your packing adventure a few days before your holiday. Create a checklist based on your destination and activities, so you don't forget essentials. Early preparation eliminates last-minute stress, making your journey smoother.

## Mix and Match Magic

Select versatile clothing that can be mixed and matched, saving space and offering more outfit options. Stick to a harmonious color scheme and pack layer-friendly pieces for unexpected weather changes.

## Toiletries – Less is More

Simplify your toiletry bag with only the essentials. Many hotels provide basic items, so there's no need to pack your entire bathroom. Invest in travel-sized containers and remember airline liquid restrictions to keep it hassle-free.

## Tech Savvy Travel

Organise chargers and cables using cable organisers or ziplock bags. Consider a portable charger for your devices and always pack a universal power adapter for seamless connectivity.
